

## Urban Health Plan's Mission

With over 30 years of service and a deeply rooted foundation in the South Bronx, Urban Health Plan's mission is to continuously improve the health status of underserved communities by providing affordable, comprehensive, and high quality primary and specialty medical care.

Urban Health Plan is dedicated to rendering care in a culturally competent, barrier free, individualized, and family oriented manner, with an emphasis on prevention through education and the provision of state of the art services.

## Mission & Vision

### Mission

The School Based Health Program (SBHP) is designed to **ease access** to health care by **reducing the barriers** that have historically prevented students of all ages from seeking the necessary health care services. Our School-Based-Health-Clinics (SBHCs) represents a **partnership** between community members, schools and each SBHC site. We will provide a full range of **superior** health care services for **all students**, regardless of whether or not they have the ability to pay.

### Vision

By using **innovative ideas** in Community Based Health Care the SBHP will become a **beacon of wellness** for the communities that we serve.
